COMPANY PROFILE

ETC Hire Pty Ltd has been trading in the hire of electronic traffic advisory equipment/electronic road safety signage since 2008.

ETC Hire has an extensive fleet which includes variable message boards (VMS) in both amber and 5 colour, portable traffic lights (on trailer or tripod), solar lighting towers (Different Models), radar speed check signs (on trailer or tripod) and mobile LED billboards.

Located in Arundel on the Gold Coast, ETC Hire holds the majority of market share for the hire of the above equipment.

ETC Hire only purchase Australian made and standards compliant equipment from reputable local suppliers and manufacturers to ensure the high standard and quality of our fleet.

WHO ARE WE?

ETC Hire has proudly been supplying Brisbane and Gold Coast traffic control equipment, VMS boards and LED boards throughout Southeast Queensland and Northern New South Wales since 2008. Our traffic equipment and signage are designed for a wide range of sectors and applications including construction, traffic control, retail, events, commercial, civil, and mining. We aim to provide our clients with the latest, most innovative products and reliable, professional service.

Most of our fleet we purchase is Australian made. We only buy equipment from reputable suppliers and manufacturers, to ensure the equipment we hire performs efficiently and reliably. Each piece of equipment is regularly serviced, checked, and tested thoroughly before being handed over to our customers. Exceptional after-hours service is just another benefit available to our valued clients.

LOCATIONS SERVED

ETC Hire has been supporting the traffic control equipment and sign hire needs of businesses on the Gold Coast and in Brisbane for over 10 years. We also service the Sunshine Coast, Ipswich, Byron Bay, Northern Rivers and greater New South Wales.

AUSTRALIAN STANDARDS

Our fleet are 100% solar powered with battery backup. We regularly maintain and service our standards compliant equipment so that it is delivered in tip top condition, ensuring that it does the job as required. We also have exceptional after-hours service personnel who can provide after sales service by phone or onsite service as required.

LOGISTICAL CAPABILITIES

We take safety and legality very seriously, so it has always been our goal to make sure that our products are safe to use and meet all the set legal and traffic management hire industry standards.

H.S.E.Q

Health and Safety

ETC Hire is determined to create a healthy and safe environment for all employees. Having a positive atmosphere where all team members receive the necessary direction they need, such as information, instructions, tools, and training. There is constant communication with the team to ensure that safety practices are being updated and met, to limit any potential hazards or risks.

Environment

ETC Hire is also environmentally focused, and as a result, a vast majority of our equipment is solar powered. This means our traffic control and LED signs are eco-friendly, low maintenance and cost-effective, as there's no ongoing running costs.

Quality

Since ETC Hire is an Australian owned and operated company, most of our equipment is Australian made. We never compromise on quality and are fully equipped to deal with any traffic control related issues in locations such as the Gold Coast, Brisbane, Sunshine Coast, Ipswich, Byron Bay, Northern Rivers, and greater New South Wales. We offer a wide variety of different products for hire.

KEY BUSINESS AREAS

Community Engagement

In over 14 years of business, ETC Hire has taken care of the community to the core of its business. Through local employment and training, plus sponsoring local community events and sporting teams such as The Leukemia Foundation, Brisbane Convoy for Kids, and the Helensvale Hogs Rugby League Club, ETC Hire has established a solid base of community values. As ETC Hire moves forward, we will continue to grow and increase our support to local communities through local employment and supporting local ventures.

Industry Networks

ETC Hire are members of the HRIA (Hire and Rental Association) and regularly attend the meetings for industry knowledge, networking, and improvement. Our commitment to the association ensures a stronger presence within the industry and helps to build our company with our alliances and procedures. ETC Hire is well respected within the hire industry and frequently cross hire equipment to other hire companies in Southeast Queensland.

Customers

ETC Hire supply hire equipment to the traffic and civil industries for road construction and maintenance. In addition, they regularly hire to retailers and event organisers. ETC Hire have established a network of hire companies with whom they will cross hire including Coates and Road hire.
